

SUSTAINABLE DEVELOPMENT POLICY STATEMENT

The Brewery is one of London's largest and most attractive events venues, specialising in offering event organisers a bespoke space and service to ensure the clients vision becomes a reality.

The Brewery wants to become the venue of choice for local and international events and we want to take the lead in ensuring that our events are delivered in a sustainable manner.

We are therefore working to minimise the negative social, environmental and economic impacts of our activities. We will endeavour to look after the Grade II listed building in which our activities take place to pass its legacy to future generations.

Our Mission is to create and deliver events that not only meet the highest standards of excellence but also contribute positively to the environment, society, and economy. We are committed to embracing responsible stewardship, fostering an inclusive environment, upholding the highest standards of integrity and ensure transparency in all our operations.

We strive to create events that not only meet the needs of today but also contribute positively to future.

The Brewery wants to become the venue of choice for local and international events.

We are committed to:

- Providing leadership on sustainability issues within the event management industry;
- Taking into consideration the needs of our stakeholders; Ensuring compliance with all statutory, regulatory and other requirements to which we subscribe;
- Seeking continuous improvement in all aspects of the company's sustainability performance through compliance with the requirements of the international standard BS ISO20121:2024;
- Providing necessary resources and training for those involved in the delivery of our clients' events at our venue;

- Working with our service partners, suppliers and other stakeholders to improve the sustainability of all the services provided at our venue;
- Delivering sustainable events in line with our documented statement of purpose and Values;
- Providing Objectives and Targets to measure us against, which will be reviewed annually;
- Our governing principles of sustainable development as determined in the Statement of Purpose and Values;
- Assessing and reporting on achievements and lessons learned and, where appropriate, wider outcomes (event impact and legacy);

Based on the long-term sustainable development objectives of The Brewery our:

3-year vision is

- To establish a robust sustainability framework and achieve initial sustainability targets.
- Foster strong partnerships with local communities and stakeholders.
- Implement innovative technologies to enhance sustainability practices.

5-year vision is

- To achieve significant reductions in carbon footprint and waste generation.
- To become a recognised leader in sustainable event management within the industry.

10-year vision is

- To work towards achieving net-zero carbon emissions for all events
- To create a lasting positive impact on the environment and local communities.
- To continuously innovate and set new benchmarks for sustainability in the event management industry.

This policy will be communicated to all associates of the Brewery and any other interested parties, and will be reviewed annually to ensure it remains relevant to our governing sustainable development principles relating to the provision of private and contracted event services.

James Varah
